BARBIZON CAPITOL ANNOUNCES BARBIZON LIGHTING EXPO 2008

Alexandria, Va. — Information may be the most valuable commodity in the decision making process. Barbizon continually provides our customers with valuable information on the products and services we offer—on our website, through printed materials, and with our knowledgeable sales staff. Although reading a webpage or brochure can give you a wealth of information, nothing beats the "hands on" experience of a trade show.

Barbizon Capitol has organized a regional Lighting Expo designed to provide you with first-hand experience, as well as the opportunity to meet manufacturers, other professionals and industry leaders. Over 40 lighting manufacturers will be demonstrating their latest products and offering advice on the right equipment for your specific needs.

Additionally, the Barbizon Expo will provide you with educational opportunities to increase your knowledge of products and techniques. During the course of the day there will be instructional lighting sessions led by industry professionals covering television, film, and theatrical lighting. Please visit the Expo's website for updates on session times and specific topics.

The Barbizon Lighting Expo is being held at the Washington, D.C. Convention Center on Thursday, June 12, 2008, from 9:00 a.m. to 5:00 p.m. The Expo is open to anyone interested in broadcast, entertainment, architectural, theatrical, and museum lighting products and services. Admission to the Expo and the informational sessions is free for all attendees.

For more information about the Barbizon Lighting Expo, or to register to attend, please visit: www.barbizonexpo.com, or contact Justin Lang at 202-340-6988.
